Subject: DEQ letter on Gunderson's status of interim measure completion
Attachments: Status_of_bank_interim_measure_completion.docx

Hi Dave.

Michael LaDouceur notified me that he was able to issue the USACE permit yesterday. Thank you for the communications during final permitting last week ensuring that you have been moving forward with preparations to complete the work as soon as possible.

As we discussed, I put together the attached letter detailing DEQ's understanding of the timing of completion of all interim measures, to confirm we are on the same page. I trust you will find this is just good communication on my part and continuing DEQ's approach as "tough, but fair" as you requested in our first meeting with me as PM. I hope it also helps us keep the progress you have been making at the site moving forward and on agreed to schedules, which we also agreed to work together to improve.

Let me know if you would like to talk about this further. I look forward to seeing the bank work in action and meeting on the next pieces that are coming together.

--Alex
